

*What would it take to make a positive change in our world,
and could the effort of just one person really make a difference?*

Could that one person be you?

If you could just imagine ...

*That each one of us every day on our trip to work,
would pledge their daily commute to help another,
what a different kind of world this would be,*

Imagine that!

Fund Raising Programs To Help Your Cause

Introduction

Welcome to the world you would like to live in. How do you get here? It's simple, all you need to do is care. Care about others as much as you care about yourself. Help others in a time of need. Get involved. Participate. Make a commitment. Do it. That's all it takes to change the world we live in. Are you ready?

An Innovative Approach to Fundraising For Your Cause

Times are tough. We all know that. But times are really tough for those that need your help. Traditional fundraising programs can only do so much. Broaden your horizons, try something new and innovative. Our new fund raising programs help you and your cause reach a broader demographic, a larger audience, and as many people as possible. The more people you reach the better your chances of success!

Set Yourself Apart To Become Different And Unique!

Every day in every metropolitan area across the United States we all wake up, grab a cup of coffee and make that trip to work. We all commute, by bus, by train, by car. We ride and we drive to get to work on time. We survive that daily commute. Why not reach out to your supporters and make new ones. Ask them to Pledge The Trips You Ride™.

Custom Cause Logo And Web Address

Proficient Ideas will create a custom cause logo for your organization with a very special directory for your web address based on your fund raising program selection. You can use this custom fundraising identity for your organization to forward directly to your online donation page.

Commuting For Your Cause Is A Great Opportunity

Bring your cause out front to all of us! Imagine if just 1% of all of us would notice and listen to your organizations important message. What if they cared enough to support your cause and make a commitment to pledge their trips each day when they commute to work. Now that would be something... Imagine that!

Commute To Survive™

Specifically for brain cancer and brain tumor research organizations that would like to reach everyone in their community who commutes to work every day by train, by bus or car. Commute To Survive™ is a simple pledge donation program for your supporters to follow and can be coordinated with an online donation system.

Daily Commute To Survive™

Specifically for brain cancer and brain tumor research organizations that would like to reach out to everyone who commutes to work every day by train, bus or car. Daily Commute To Survive™ works together with our Pledge The Trips You Ride™ special program and would be closely coordinated with your online donation system.

Pledge The Trips You Ride™

Our new fundraising programs concentrate on the things that we do everyday. No need to eat a bowl of pasta or to weigh in. You won't need a new pair of running shoes or even a good night sleep. All you need is just your commitment to help every day when you commute on your trip to work. It's so simple when you Pledge The Trips You Ride™!
