

The Green Cartridge™

waterless, chemical & maintenance free

Water and money should never be wasted. The Green Cartridge™ offers conservation that is both environmentally friendly and economical. *This is the only waterless urinal cartridge you'll ever need.* Unlike the rest of the waterless cartridges, once installed you'll never need to replace it or buy another. The Green Cartridge™ is fully automated with no parts that need replacing - generating NO residual costs. Employing a *truly touch-free* operation, it utilizes a patented closed, sealed system - allowing NO residual odors and sewage gas to escape even when in use. The Green Cartridge™ is the least expensive and most eco-friendly waterless urinal on the market.

Green ring - MSRP \$299
SKU 1111G

Ultra-violet ring - MSRP \$299
SKU 2111U

Without light - MSRP \$275
SKU 3111N
(battery operation)

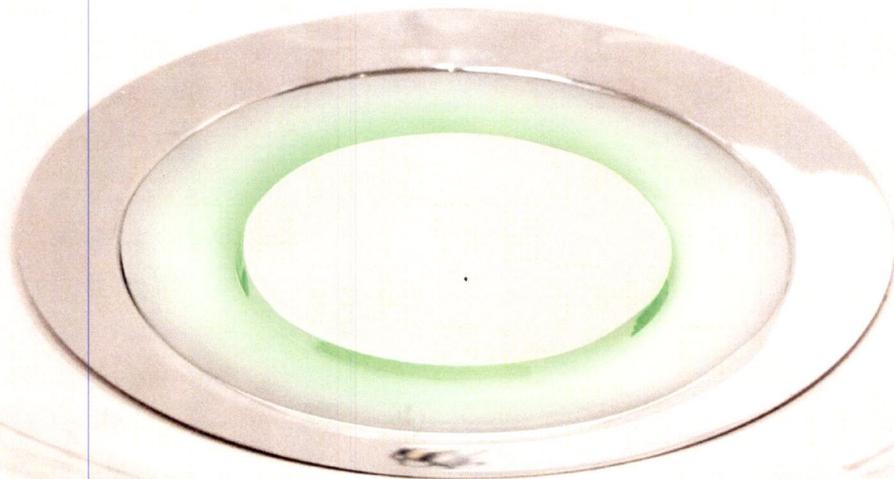

*The Green Cartridge is not endorsed
or associated with Falcon or Sloan

The Green Cartridge™ Features & Benefits

- NO use of water or chemicals (sealant liquid)
- NO replacement cartridges ever needed
- NO costly continual maintenance
- Fits & replaces Falcon, Sloan & other waterless urinal cartridges
- Non-polluting - prevents unnecessary landfill & biohazard waste
- Dual-patented valve prevents odor & sewage gas seepage
- Utilizes optional UV sanitizing light for added germicidal benefits
- Utilizes aesthetic optional green light
- Uses a proximity sensor to open before use & close immediately after use
- Tamper-proof protective cap
- Functions in a freezing environment
- Fully electronic - battery or low voltage
- Easily flushed with water at any time
- Not harmed by cleaning solvents
