[More](#)

Rather than one strap in the middle, covering up the vagina, this Texas Two Strap Harness fits more like a jock strap, so the vagina is left accessible. Choose from premium black garment leather or nude lambskin leather with a black latex dildo ring.

This harness is adjustable to fit those with a waist measurement up to 44". Designed for use with a dildo that flares out at the base and/or has balls. The non-removable ring is 1 3/4" in diameter.
