Design. Build. Customize.

O'Brien Construction Company, Inc. is a full-service general contractor located in Kennewick, Washington. Established in 1973.

O'Brien's philosophy was founded on the idea of offering superior service, high quality, and faster production for his clients. In the time since, O'Brien Construction has worked on projects throughout the Northwest that range from detailed remodels to complex add-ons and new construction.

Over the years, our team working relationship with our customers has generated trust and confidence that translate into repeat business and many customer referrals.

Your Vision, Our Passion.

Pre-Construction Planning

The overall success of a construction project, no matter the size or delivery method, starts with the partnership with the customer. As a full-service contractor, O'Brien Construction provides a comprehensive range of delivery methods which can be tailored to meet your exact requirements.

Construction Management

The expert team at O'Brien Construction will find the right solution for the development of your project and construction, being the ideal partner for your custom, design-build project.
