

O'Brien Construction - Who We Are

Reliability, Accountability and Integrity are our Core Values.

Our Mission

O'Brien Construction Company mission is to raise the construction industry standards of commitment to our environmental responsibility, building excellence, construction quality and long term value. We do this through management, technical leadership, teamwork and through our dedication to fulfilling the needs of our clients.

Why Choose Us

- Ability to self perform a large percentage of tasks associated with/or on the critical path, thus being able to maintain critical elements of the construction schedule and provide better time lines.
- We use quality products for each project.
- Our design, construction and project management teams work closely together from beginning to end to ensure a positive experience for the customer.
- Higher percentage of construction dollars spent in the local community to benefit and stimulate the local economy.
- Review job costs from pre-construction through job closeout.
- Open lines of communication between us and you before, during and after the project.

Associations: Associated General Contractors of America | Tri-City Chamber of Commerce
Tri-City Development Council | Tri-City Construction Council

Testimonials

"We employed O'Brien Construction in 06-07 to construct our 43,000 sq. ft. Toyota dealership in Kennewick. We were very happy with the timeliness and attention to detail in getting this project completed, and would have no reservations recommending O'Brien Construction for any construction project."
— Dwight Marquardt, Toyota of Tri-Cities Platform Manager, Inc.
