AMENDMENT AND RESPONSE TO OFFICE ACTION

Applicant has received the Office Action dated October 31, 2013 from examining attorney Alyssa Paladino Steel, Law Office 107, and has carefully noted its contents.

The examining attorney has raised two issues in connection with the prosecution of this application. First, she has refused registration on the Supplemental Register because Applicant's mark is eligible for registration on the Principal Register. Accordingly, Applicant amends its application to seek registration on the Principal Register.

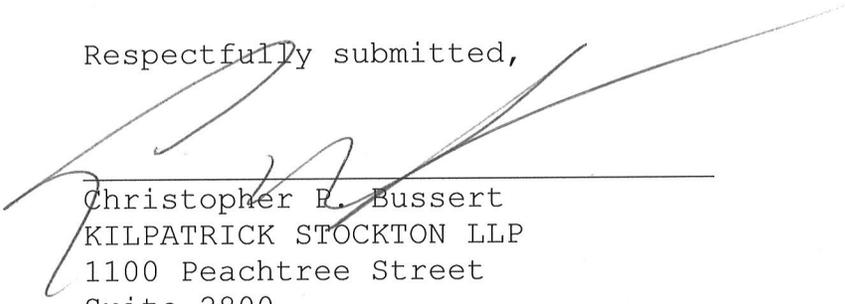

Second, the examining attorney has objected to the identification of services on the grounds that it is allegedly indefinite. In accordance with the examining attorney's suggestion, Applicant requests the amendment of the identification of services in its application to read as follows:

Repair and refurbishment of cellular telephones and other electronic devices, namely, personal digital assistants, hand-held video game units, video game consoles, audio and music headphones, and headsets for use with mobile telephones in International Class 37.

Having fully responded to the examining attorney's Office Action, Applicant respectfully requests that the examining attorney pass its mark to publication.

Dated: December 3, 2013

Respectfully submitted,
