WOLF BREAKING THE RECORD IN USA

27/02/2013 - A couple of months after hitting the USA market with the commercialization of the Wolf GB08 started last December through the official dealer Motorsports Southwest, the Italian car harvested yesterday the first stars-and-stripes sportive success.

Max Papis set in fact the new fastest lap of the circuit of Harris Hill Road, the race track close to Austin (Texas), in a testing day. Papis completed the record lap in 1'13.400 breaking by nearly two seconds the previous record that he already set on a Ferrari 458 Italia.
